EXPERIENCE

WorIn Well Internship

26th Jul, 2022-26th Sep, 2022

I was an intern at WorIn Well where me and few other interns developed a job portal for them. It was a 2 month internship .

SUMMARY

I am a highly motivated and accomplished professional with a strong background in Mern stack development.

Throughout my career, I have developed expertise in front-end development. I thrive in dynamic environments and have a proven track record of successfully managing complex projects from start to finish. My exceptional problem-solving skills and strategic mindset allow me to identify innovative solutions and drive organizational growth.

I am a natural leader, adept at building relationships with stakeholders at all levels and navigating cross-functional collaborations. My excellent communication skills enable me to articulate complex ideas clearly and concisely, driving alignment and achieving desired outcomes.

I am passionate about web development, and I constantly strive to stay at the forefront of emerging trends and technologies. I am a lifelong learner, always seeking opportunities to expand my knowledge and skill set. I am confident in adapting to evolving industry landscapes and leveraging new tools to drive innovation and deliver exceptional results.

I

PROJECTS

Obstacle Detection For Blind People

It is a Python and openCV based project in which we provide a set of special glasses to blind people which detects obstacle in their way and then guide them direction accordingly

CureCancer Site

It is my site which is developed using HTML5, CSS3, Javascript, and JSON which allows an economically weaker section of the society who have cancer to get treatment by raising their donations on my website.

GoNews website

It is my site which is developed using HTML5, CSS3, Javascript, JSX, ReactJS, API keys, and JSON which allows people to read the latest news and also they can read based on categories like science, business, etc.

TextForm Site

It is my site which is developed using HTML5, CSS3, Javascript, JSX, and ReactJS which allows people to write, copy, remove extra spaces delete, check the word and length count of any text written by them or copied by them. The site also contains dark and light modes which the user can change on its will accordingly
